Work history

- 2021 – **MemeGenerator**
Create a meme in seconds and download to your computer.
Using – Vanilla JavaScript, ES6, with latest Html technology – html canvas.
Can see it here: https://dotangerbi.github.io/mineSweeper/
Repo: https://github.com/dotangerbi/mineSweeper
- 2021 – **Portfolio website**
My website, if you want to know more about me and see all my projects. Using – jQuery, owl-carousel, typing, fontawesome.
Can see it here: https://dotangerbi.github.io/mineSweeper/
Repo: https://github.com/dotangerbi/mineSweeper
- 2021 - **Full-stack website pixel-perfect imitating Fiverr**
Used with Vue.js + Vuex, Node.js, MongoDB and libraries such as font-awesome, ElementUI Axios.
The Challenge: Working together with my team, careful not overriding each other's workspace and break code. It was fun, hard work and done good job.
